TO: Extension Directors and Administrators

FROM: Colien Hefferan  
Administrator

MAY 27 2004

SUBJECT: Renewable Resources Extension Act (RREA) Funds Distribution for FY 2004

The Renewable Resources Extension Act (RREA) allocation to States for fiscal year (FY) 2004 is attached. The Cooperative State Research, Education, and Extension Service (CSREES) FY2004 appropriation is \$4,040,022, a decrease \$476,429 or 10.5%. As a result all institutions and programs will receive a reduced amount in FY 2004. Specifically, the allocation process resulted in:

- A 10% reduction in the base allocation to the 1862 Land-Grant Institutions.
- A 10% reduction in the allocation to the 1890 Land-Grant Institutions and the 1862 Land-Grant Institutions in the Insular Areas and the District of Columbia.
- A 10% reduction in the National Focus Funds.

Our intent with this allocation process is to: 1) be consistent with the law, 2) apply the 10% reduction as evenly as possible across all institutions, and 3) retain the National Focus Funds which have supported a National Web-Based Learning Center for Private Forest and Rangeland Owners which will soon "go live" on the internet.

The Sustainable Forestry Outreach Initiative (SFOI) continues to be a component of the current Farm Bill legislation that re-authorized RREA. This initiative directs RREA-eligible institutions to educate landowners concerning:

- "(1) The value and benefit of practicing sustainable forestry.  
(2) The importance of professional forestry advice in achieving sustainable forestry objectives.  
(3) The variety of public and private sector resources available to assist landowners in planning for and practicing sustainable forestry."

To comply with the legislative amendment we ask you to incorporate a sustainability message in your RREA programs.

With the release of the five-year RREA Strategic Plan by the Extension Committee on Organization and Policy (ECOP) Forestry Task Force, I ask that, in lieu of submitting an FY2004 Plan of Work for RREA, that you consider your RREA programs in the context of the strategic issues that were identified by the Cooperative Extension System and how you will utilize the Federal funds to address these issues over the next few years. We intend to use the Strategic Plan to invest in the specified RREA program priorities for the next five years. Working in concert with the Task Force, we will ensure that you and your program leaders receive copies of this plan.

In addition to the priority natural resources issues, there are several ECOP-recommended actions related to program leadership, management, and accountability. In concert with the Administration's emphasis on budget and performance integration and the criticality of scrutinizing Federally funded programs to determine value and impact, we are examining the current accountability process for RREA to determine where additional emphasis is needed. This process will involve the ECOP Forestry Task Force and the Cooperative Extension System as we seek to find program accountability processes that are efficient, cost-effective, and comprehensive. In the short term, you will be asked by the RREA Program Manager to provide an Annual Report of Accomplishments for FY2004 and the timing of that will hopefully correspond to the preparation of your other FY2004 reports.

The RREA Budget Form for FY 2004 is attached. Please complete and return by July 15, 2004, to:
